

ComponentBase

IDisposable

Luthetus.Extensions.DotNet.  
Outputs.Displays.Internals.Output  
Display

```
graph BT; A[Luthetus.Extensions.DotNet.Outputs.Displays.Internals.OutputDisplay] --> B[ComponentBase]; A --> C[IDisposable];
```

The diagram illustrates a class hierarchy. At the bottom is a gray box representing the class `Luthetus.Extensions.DotNet.Outputs.Displays.Internals.OutputDisplay`. Two blue arrows point upwards from this box to two white boxes above it. The left white box is labeled `ComponentBase`, and the right white box is labeled `IDisposable`. This indicates that `OutputDisplay` inherits from or implements both `ComponentBase` and `IDisposable`.
