

Luthetus.CompilerServices.  
CSharp.Tests.SmokeTests.Lexers.  
LexerTests.LEX\_MinusToken

```
graph LR; A[Luthetus.CompilerServices.CSharp.Tests.SmokeTests.Lexers.LexerTests.LEX_MinusToken] --> B[Luthetus.TextEditor.RazorLib.Lexers.Models.ResourceUri]; B --> B;
```

The diagram illustrates a dependency relationship between two assemblies. On the left, a grey-shaded box represents the assembly 'Luthetus.CompilerServices.CSharp.Tests.SmokeTests.Lexers.LexerTests.LEX\_MinusToken'. A straight blue arrow points from this box to a white box on the right, which represents the assembly 'Luthetus.TextEditor.RazorLib.Lexers.Models.ResourceUri'. Additionally, a curved blue arrow originates from the top of the right box and points back to the top of the right box, indicating a self-dependency or a circular reference within that assembly.
