

Luthetus.TextEditor.Razor  
Lib.CompilerServices.Interfaces.  
ILexer

```
graph BT; CSharpLexer[Luthetus.CompilerServices.CSharp.LexerCase.CSharpLexer] --> Lexer[Luthetus.TextEditor.RazorLib.CompilerServices.Implementations.Lexer]; Lexer --> ILexer[Luthetus.TextEditor.RazorLib.CompilerServices.Interfaces.ILexer];
```

The diagram illustrates an inheritance hierarchy with three classes arranged vertically. The bottom class, 'Luthetus.CompilerServices.CSharp.LexerCase.CSharpLexer', is shaded gray. A blue arrow points upwards from this class to the middle class, 'Luthetus.TextEditor.RazorLib.CompilerServices.Implementations.Lexer'. Another blue arrow points upwards from the middle class to the top class, 'Luthetus.TextEditor.RazorLib.CompilerServices.Interfaces.ILexer'.
