

IAsyncDisposable

```
graph BT; A[Luthetus.Extensions.Config.ExampleJsInterop] --> B[IAsyncDisposable];
```

The diagram illustrates an inheritance relationship. A light gray box at the bottom contains the text 'Luthetus.Extensions.Config.ExampleJsInterop'. A blue arrow points vertically upwards from this box to a white box at the top containing the text 'IAsyncDisposable'. This indicates that 'ExampleJsInterop' inherits from or implements 'IAsyncDisposable'.

Luthetus.Extensions.Config.
ExampleJsInterop
