The diagram consists of two rectangular boxes. The left box is shaded gray and contains three lines of text representing a fully qualified class name. The right box is white with a black border and contains two lines of text representing a resource URI. A straight blue arrow points from the right side of the gray box to the left side of the white box. A curved blue arrow originates from the top right corner of the white box and points back to its top left corner, forming a self-loop.
